# Meet the interface TVPLAY Graphic

A versatile solution for managing the playback of multimedia elements in multiple formats, compatible with a wide variety of standard video cards, without the need to purchase a specific video card or additional equipment. In addition, TVPLAY offers great flexibility to import and readjust the rundown at any time.

TVPLAY stands out for its various uses and possibilities: TV Continuity, Payout Video, Ingest and Digital Signage.

A new concept: based on a low-cost system with the most common and important needs of a TV playout and continuity system, with minimum requirements within everyone's reach.

Adapted to RD 16/2023 that obliges, as of 14/02/2024, Full HD Broadcasting
