

TVPLAY

TVPLAY is a *playout software and audiovisual continuity system for television* in a single device, with the possibility of choosing between one option or the other using a single switcher

RUNDOWN MANAGEMENT

- Perfect organization of elements in *rundowns*, **editable in real time.**
- Saving and loading of rundowns on disk in XLM format.
- Possibility of *automatic daily rundown loading.*
- Multiple information about sources (duration, codec, format, bitrate, etc.)

PLAYOUT & PLAYBACK

- Full control of playback (pause, forward, skip, loop, etc.)
- Compatible with the *most commonly used video formats*: mov, avi, mkv, wmv, 3gp
- Elapsed, remaining, and total time counters
- New and optimized playback engine
- "On Air" display system
- Streaming broadcast capability (UDO, HTTP, RTP, RTSP, RTMP, SFT). **NEW**

CUSTOMIZATION

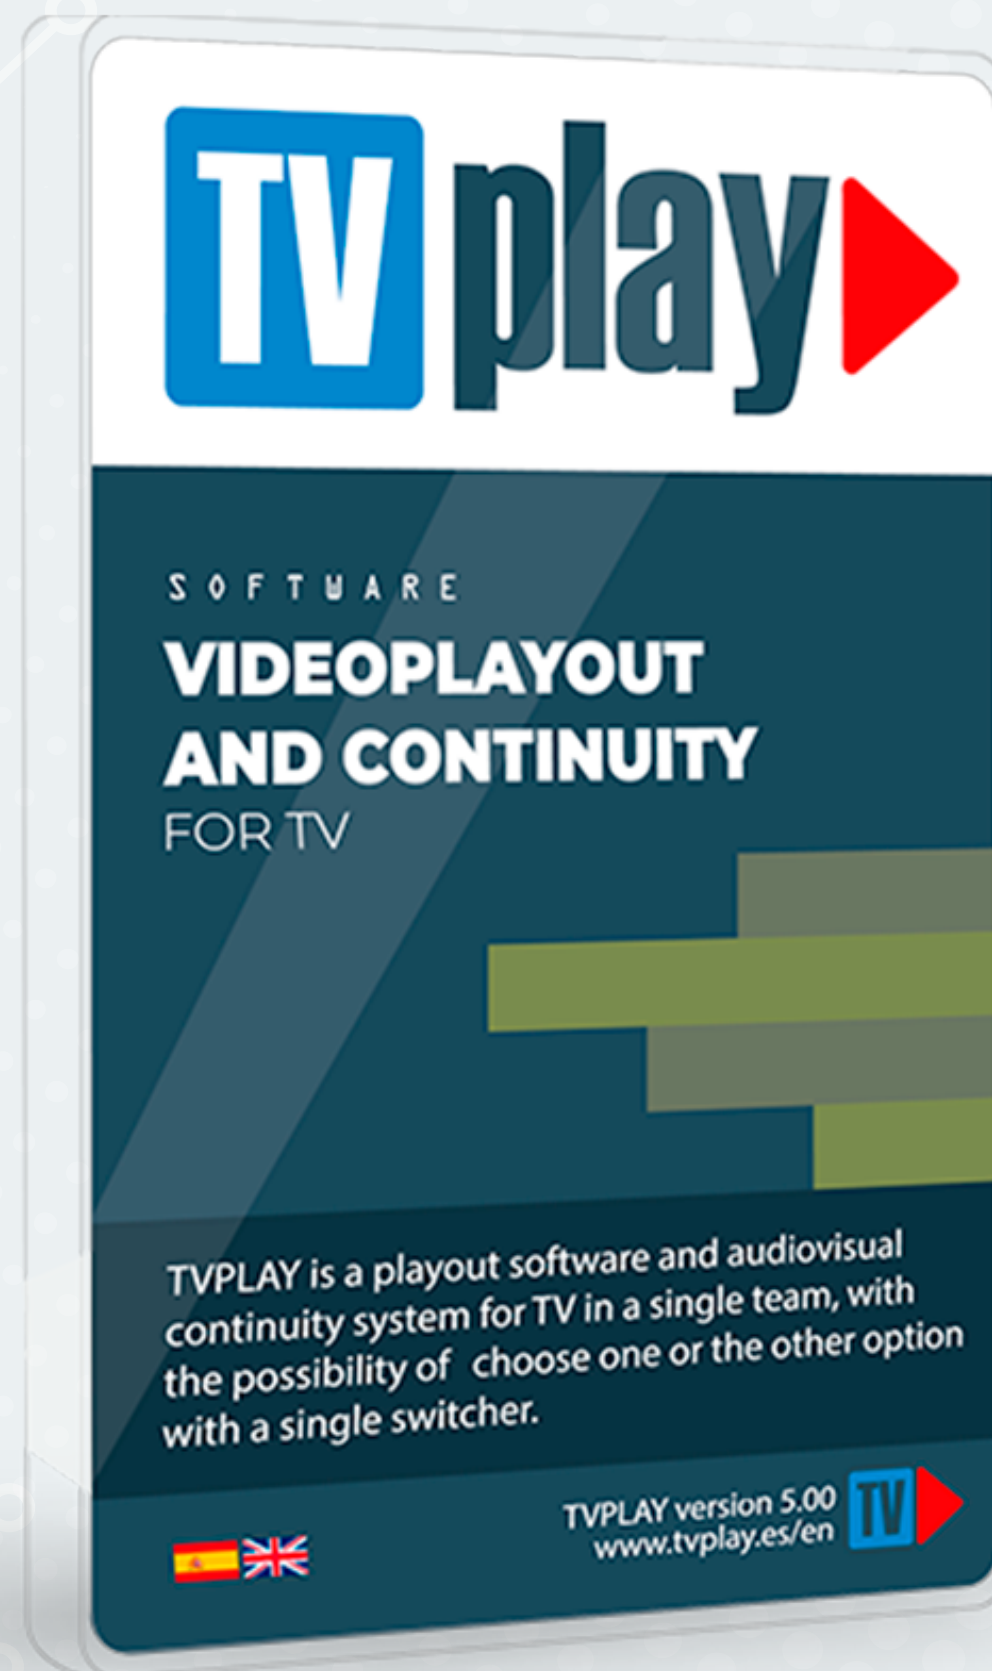

- *Five quick-assignment* presets for each of the two logo keyers.
- Insertion of simultaneous logos, choosing their position, size, and transparency.
- Up to 3 graphic layers with an external matrix.
- Customizable line color by video type.
- Assignment of in/out TCs at the beginning and end of a video.
- Real-time language switching (ES-EN).
- Scheduling the start time of each video.
- Audio level adjustment. **NEW**

IN/OUT & MONITORING

- Program signal monitor (PGM) and highlightable image.
- Preview signal monitor (PVW).
- Streaming module and integrated live switcher control.
- Event line (switches, images, URLs, notes, etc.).
- Support for 8×8 and 16×16 SDI matrices. **NEW**

TVPLAY has two possible modes of operation: *PLAYOUT* and *CONTINUITY TV*.

Discover the graphical user interface of TVPLAY

The screenshot displays the TVPLAY software interface. On the left, a sidebar contains navigation options like 'On Air', 'Control TVOne', 'XPLAY', 'AV Matrix', 'Escaleta', 'Eventos', 'Configuración', 'Escaletas Diarias', 'EPG', 'Emisión', 'Multiview', 'Scroll Texto', 'Logo principal', 'Logo secundario', 'Seguridad', 'Mantenimiento', 'Registro de reproducciones', 'Idioma', 'Registro de mensajes', and 'Ayuda'. The main area shows a table of video elements with columns for 'MINIATURA', 'LANZADOR', 'EPG', 'FECHA EMISIÓN', 'INICIO', 'TÍTULO', 'FIN', 'FORMATO', 'IN', 'OUT', 'LOOP X', 'DURACIÓN', 'GAP', 'ETIQUETA', and 'LOGO'. The table lists various video clips, including 'Matt Cardle Melanie C - Loving You' and 'Middle Earth Shadow Of Mordor Full Story Trailer'. On the right, a playback window shows a video player with controls (play, stop, seek, volume) and a timeline. Below the player, there are fields for 'Pista 11 / 35', 'Transcurrido 00:00:15:15', 'Restante 00:03:20:85', 'Total 04:01:53:00', 'Hora Fin 14:22:22', and 'Fin 28/05/2025'. A 'Legenda' section at the bottom right provides technical details for the selected video element.

MINIMUN REQUIREMENTS

- **O.S.:** Windows 10/11 (64-bit)
- **Processor:** Intel Core i7 (PLAYOUT) | i9-Xeon (TV CONTINUITY)
- **Memory:** 32GB DDR3L
- **Storage:** SSD > 256 GB for system
- **Video:** NVIDIA GeForce GTX1070 / Quadro P2000 (8 GB DDR5 dedicated)
- **USB:** 1 free port for dongle

A versatile solution for *managing the playback of multimedia elements in multiple formats*, compatible with a wide range of standard video cards, without the need to purchase a specific video card or additional equipment. In addition, **TVPLAY** offers great flexibility for importing and adjusting the rundown at any time.

TVPLAY stands out for its diverse applications and possibilities: *TV continuity, video playout, ingest, and digital signage*.

A new concept: based on a low-cost system that includes the most common and essential needs of a *Playout and TV Continuity* system, with minimal requirements accessible to everyone.

Compliant with **Royal Decree 16/2023**, which mandates **Full HD broadcasting** as of February 14, 2024.

WORKSTATION SYSTEMS

You can also purchase any of our products pre-configured to work with **TVPLAY**, as well as optional accessories
